

TALK ON THE PAINTINGS IN PICKERING CHURCH

Tuesday, 6th September, 2016.

A coffee morning with Dr. Kate Giles of York University provided a fascinating journey for members as she traced the history of the paintings in Pickering Church.

We also learned the difference between the painting and frescos, (frescos are painted into the plaster). The talk was illustrated with slides and elicited a lot of questions.

We learned that the restoration of the painting is currently in competition for Heritage Lottery funding, if this is successful there will be opportunities for volunteers to assist in the project. Kate will keep us updated on progress.

Thank you Pauline for the article, and to Mike for the Photographs.
