

## Mystery Trip - 12 July, 2017

The coach picked up 49 members, then we made our way to beautiful village of Rosedale for a short coffee and biscuit stop at the Coach House Inn.

It was then back onto the coach for a scenic ride over the glorious North Yorkshire Moors where the heather was just coming into bloom. We passed through the lovely village of Castleton and on to the next destination of Whitby where we had free time for lunch, or to wander through the interesting old town, etc.

At 2:15 pm we departed Whitby and drove up our glorious Yorkshire Coast to Saltburn-by-the-Sea, a picturesque village with many delightful features.

(It is worth googling Saltburn as it has had a very interesting history), where we could take the Cliff Tramway to the Victorian Pier built in 1869, which is the only remaining pier on the north east coast.

Some of the clever creative residents had decorated the pier railings with knitted items (fish, treasure chests, pirates, mermaids etc), which made us smile. The weather was ideal, the sun was shining and it was a lovely place to be, looking out to a calm blue sea.

To end the day, we drove to the village of Great Broughton where we had a delicious early evening meal at the Wainstones Hotel.

Our thanks go to Brian our very efficient and patient driver.

Thank you Carol and Terry for organising such a lovely day, which was enjoyed by all.
