

Wynyard Hall Rose Gardens

June 22nd, 2016

June 22nd, 2016, 49 members set off on a trip to Wynyard Hall rose gardens, first stopping off at Northallerton for a quick look around the town and lunch. We then proceeded to Wynyard Hall Rose Gardens.

What was once a walled kitchen garden has been turned into a beautiful rose garden with 146 varieties of roses and many other border plants. This was created by Sir John Hall who once owned Newcastle football club.

He invested £5.3 million creating the garden and visitor centre, and is still working on more gardens for the future.

Although the weather was good on the day the results of our cold and wet spring meant that the roses were not all in flower, many of them had at least one flower in full bloom so we could imagine what the next couple of weeks would bring.

A drink and slice of cake was enjoyed in the lovely cafe and some members bought rose bushes or plants in the shop.

We journeyed home through lovely Bilsdale, a scenic end to a very enjoyable day.

Many Thanks to Carol Wray for a Lovely Day.
